

Pharmacist: please ensure the patient receives this card with each pack of Volibris dispensed

Reminder information for patients taking Volibris

WHAT YOU NEED TO REMEMBER

Use of Volibris has resulted in birth defects in animals. VOLIBRIS may harm unborn babies conceived before, during or soon after treatment.

If you are a woman:

- **You must not take VOLIBRIS if you are pregnant, or if you are planning to become pregnant.**
- **Women of reproductive potential must use** reliable contraception whilst taking Volibris.
- A pregnancy test should be performed every month
- If you miss a period, or if you think you may be pregnant, you must tell your doctor straightaway.

VOLIBRIS may cause liver injury. It is important to have blood tests to monitor your liver function before starting treatment and at regular intervals during treatment to check that your liver is working properly.

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet. You can also report side effects directly via HPRA Pharmacovigilance. Website: www.hpra.ie. By reporting side effects, you can help provide more information on the safety of this medicine.

This card is produced as a service to patients by GlaxoSmithKline
VOLIBRIS is a trade mark of Gilead Sciences, Inc.
